

# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Lily Bessette**

**MS1 Student**

Lily demonstrated outstanding professionalism and commitment to the Pitt Med student community by organizing the Black Bag Ball (medical school prom) as VP Internal on the Student Executive Council this year. As a first-year student, she showcased remarkable organizational skills and worked tirelessly to make sure the event was a success even with little assistance from others and with the daily stresses of being a medical student. The event was enjoyable and many upperclassmen commented that the Ball was the best one they had attended. Her peers appreciate her hard work and believe she deserves this accolade, and that her professional behavior reflects her character and leadership capabilities.
