

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Lily Bessette

MS1 Student

Lily is an exemplary example of a student who goes above and beyond the expectations of a student. Beyond her work in class to be present during patient panels and conferences, she has also taken a lot of time to mentor and foster positive relationships within the MSTP program with the incoming class. Additionally, her work within multiple fields of research has resulted in powerful, high-impact results pushing the boundaries of medicine. Lily is a fantastic example of what it means to contribute to the PittMed community, balancing personal and professional excellence with a kind and optimistic approach. I am grateful that she is part of our community!
