

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Ryan Camacho

MS2 Student

Ryan has been a valuable member of the interview coordination team for the past year. Ryan led the fall scheduling initiative and spent a lot of time working to accommodate our classmates' busy schedules to ensure a successful interview season. Ryan also was a key contributor to the MS1 training initiative and worked to make the student interview process accessible and easy to understand for all students. He has been highly responsive to special events from admissions and has helped tremendously to cover last-minute interviews within our class. He is highly dependable and a strong team player. Ryan's commitment to the position and upholding the goals of PittMed admissions are commendable.
