

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Gabriella Ficerai-Garland

MS2 Student

Gabriella has been an extremely effective, organized, and communicative leader of our research project. She developed an interesting idea, recruited a team of her peers, and established faculty mentorship for the project. Gabriella's direction has been instrumental in steering our research endeavors and creating an environment where collaboration thrives. Despite being the lead of the project, she actively seeks out and values each team member's suggestions, ensuring that our collective expertise is harnessed for the project's success.
