

# Pitt Med Professionalism Accolade

## CONGRATULATIONS!

**Ryan Gilbert**

MS2 Student

We are grateful Ryan Gilbert, one of the students who took time out of their busy med student lives to plan, organize, and execute Flex Week experiences for the First Year students in September. Flex Weeks are a new curricular requirement within the Three Rivers Curriculum where students break with the curriculum for a week to explore and dive deeper into projects and skill building that the students find important. Ryan Gilbert presented on the topic: “Wilderness Medicine Camping Trip”.
