

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Nicolas "Nico" Aycardi
MS1 Student

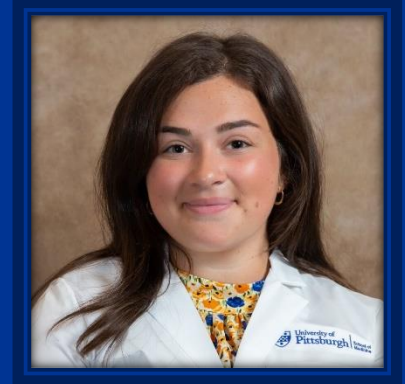

Ryan Gilbert
MS2 Student

We are grateful for the following students who took time out of their busy med student lives to plan, organize, and execute Flex Week experiences for the First Year students in September. Flex Weeks are a new curricular requirement within the Three Rivers Curriculum where students break with the curriculum for a week to explore and dive deeper into projects and skill building that the students find important.

Nico Aycardi - Introduction to Crochet
Ryan Gilbert - Wilderness Medicine Camping Trip
Regan Shanahan - Neurological Surgery Investigative Group
Sean Sweat - Rare Diseases Aren't So Rare
