

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Fidelia Gaba
MS1 Student

Fidelia is a joy to have in the Pitt Med community, and contributes positively to our school's learning environment. Fidelia started "Food Friday's", where she brought homemade baked goods (including allergy-friendly options) to Scaife for pre- and post-exam consumption. She knows everyone by name and always has something positive to say. She also participates often in in-class activities, particularly when there is a volunteer needed for a demonstration or any other situation. Her energy is bright, she is professional and well-accomplished, and she is a valuable attribute to Pitt Med. She also participates in JoLT meetings and was instrumental in providing student feedback on curriculum changes in a recent meeting!
