

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Henry Hoffman
MS2 Student

Henry deserves recognition for his role as Orientation Coordinator for the incoming PittMed class. Henry spent time during his summer off diligently planning the events and supporting the incoming students. During orientation, Henry shared his transparent experiences in and out of the classroom, offering students realistic and optimistic expectations for the year ahead. Throughout the week, he served as an accessible resource and was an excellent representation of our medical school. Working alongside Henry reminded me of the power of sharing a positive attitude with others. Henry is a stud in the PittMed community and should be universally known for his kindness.
