

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Kaley Murday

MS2 Student

Kaley did an excellent job as Orientation Coordinator for the incoming PittMed class. Kaley spent time during her summer off diligently planning the events and supporting the incoming students. During orientation, Kaley reminded the students of the importance of maintaining their hobbies outside the classroom and retaining their identity in medical school. Kaley served as an accessible, adaptable, and affable coordinator and supported all students to the best of her ability. Kaley deserves recognition for her role as a positive role model for the incoming class. Kaley is a stand-out person and her dedication to orientation is a harbinger for the outstanding care she will provide to her future patients. I am lucky to call Kaley a classmate and a friend!
