

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Hector Nieves

MS3 Student

...Clinic was short-staffed... Everyone's help was needed to vital and room patients, including attendings and residents. ...Hector Nieves offered to help with rooming and taking vitals on patients.

He was PHENOMENAL and brought such a positive presence to clinic. Hector helped to room in several patients. [We were] so lucky to have him! It wasn't an essential part of his education, but he stepped up and helped with the clinic flow. Hector's actions highly spoke about his professionalism, teamwork, flexibility and dedication to patient care.
