

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Keily Ortega

MS3 Student

...Clinic was short-staffed... Everyone's help was needed to vital and room patients, including attendings and residents. ...Keily Ortega offered to help with rooming and taking vitals on patients.

She was PHENOMENAL and brought such a positive presence to clinic. Keily probably took vitals and roomed between 5-10 patients. [We were] so lucky to have her! It wasn't an essential part of her education, but she stepped up and helped with the clinic flow. Keily's actions highly spoke about her professionalism, teamwork, flexibility and dedication to patient care.
