

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Regan Shanahan

MS2 Student

Regan's contributions as Orientation Coordinator cannot be overstated. She was the driving organizational force behind months of logistical planning, despite balancing her obligations as orientation leader with a myriad of other research and extracurricular duties. Throughout the summer, Regan took constant initiative and demonstrated her incredible work ethic when contacting vendors, navigating the finer details of the budget, and coordinating with admin. She responded to challenges with patience and grace, and executed her tasks with a competence as inspiring as it is baffling. During orientation week, Regan was kind and honest as she offered thoughtful and comforting advice to the new MS1s. Feedback on the evening social events was overwhelmingly positive, and I truly cannot stress enough how much credit Regan deserves for pulling off a wonderful orientation.
