

Pitt Med Professionalism Accolade

CONGRATULATIONS!

Christian Vivar Ramon

MS2 Student

Christian made every small group session a warmer, kinder, safer place! Every small group session, he actively listened to each and every group member's ideas and contributions, and was quick to respond in a way that was so respectful, thoughtful, and encouraging. He is easily one of the best listeners I have encountered in medical school, making everyone feel comfortable and heard. He always asked great questions in every setting, whether that be during organ system workshops, LRP presentations, or Racism in Medicine discussions. He also enlightened discussions whenever he shared about his thought-provoking experience base, perspectives, and insights-- whenever he spoke, everyone was tuned into every word. He truly brightened each session, whether it be through his kind greetings to his classmates, his concern for the well-being of others, or his greatly appreciated cat photos.
